EUROPEAN UNION Certificate model QUE-INTRA

II. Health information II.b Certificate reference IMSOC reference I, the undersigned official veterinarian, hereby certify, that: The animals<sup>(1)</sup> in the consignment described in Part I meet the following requirements: II.1.1. The animals have not shown signs of occurrence of American foulbrood, Aethina tumida (Small hive beetle) and Tropilaelaps spp. during the visual examination carried out within the 24 hour period prior to departure. II.1.2. Their packaging and any accompanying feed or other material have not shown signs of presence of American foulbrood, Aethina tumida (Small hive beetle) and Tropilaelaps spp. during the visual examination carried out within the 24 hour period prior to departure. II.1.3. The documentary check verified that the establishment of origin has been inspected every month during the production season by the competent authority with negative results to provide a confidence level of at least 95% of detecting infestation with small hive beetle if at least 2% of the hives were infested. II.1.4. The animals are caged individually with a maximum of 20 accompanying attendants. Part II: Certification II.1.5. Arrangements have been made to ensure that the cages, containers or the entire consignment are covered with fine mesh of not more than 2 mm in pore size immediately after the visual examination for the health certification. II.2. According to official information, the animals meet the following animal health requirements: II.2.1. The animals come from an apiary situated in the centre of a circle of at least 3 km radius where American foulbrood has not been reported during the 30 day period prior to departure and which is not restricted due to an outbreak of American foulbrood. II.2.2. The animals come from an apiary situated in the centre of a circle of at least 100 km radius, where infestation with Tropilaelaps spp. has not been reported and which is not restricted due to a suspected case or the confirmed occurrence of infestation with Tropilaelaps spp. II.2.3. In the apiary infestation with small hive beetle has not been reported and the apiary is situated at a distance of at least 30 km from the limits of a protection zone of at least 20 km in radius established by the competent authority around a confirmed occurrence of infestation with small hive beetle. II.2.4. the apiary is not located in a zone restricted by emergency measures established by the Union due to the confirmed occurrence of infestation with small hive beetle. II.2.5. the apiary of origin is situated in an area where annual surveillance for the detection of infestation with small hive beetle by the competent authority is ongoing to provide a confidence level of at least 95% of detecting infestation with small hive beetle if at least 2% of the apiaries were infested.

EUROPEAN UNION

Certificate model QUE-INTRA

- <sup>(2)</sup>II.2.6. [The animals come from a Member State or zone thereof with the status free from infestation with *Varroa spp.* and arrangements have been made to ensure that they are protected from infestation with *Varroa spp.* during transport.]
- II.3. To the best of my knowledge and as declared by the operator, the animals in the consignment come from an establishment where there were no abnormal mortalities with an undetermined cause and they have not been in contact with honeybees which did not comply with the requirements referred to in point II.2.
- II.4. This certificate is valid for 10 days from the date of issuing. In the case of transport by waterway/sea of animals, the period of 10 days for the validity of the certificate may be extended by the duration of the journey by waterway/sea.

#### Notes:

In accordance with the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community, and in particular Article 5(4) of the Protocol on Ireland / Northern Ireland in conjunction with Annex 2 to that Protocol, references to European Union in this certificate include the United Kingdom in respect of Northern Ireland.

This animal health certificate shall be completed according to the notes for the completion of certificates provided for in Chapter 2 of Annex I to Commission Implementing Regulation (EU) 2020/2235.

### Part I:

Box reference I.11: "Place of dispatch": Indicate a registered establishment.

Box reference I.12: "Place of destination": Indicate a registered establishment.

Box reference I.30: "Nature of commodity": indicate: queen honeybees with maximum 20 attendants.

## Part II:

- (1) Animals can only be queen honeybees with maximum 20 attendants.
- (2) Delete if not applicable.
